SUMMARY

Full Stack Developer with 4+ years of experience at Geeks of Kolachi. I build web applications, REST APIs, and real-time features with React, Next.js, Node.js, NestJS, and Supabase, from the database to the frontend. I also build React Native apps and have added AI features using the Claude and OpenAI APIs.

EXPERIENCE

Geeks of Kolachi **January 2022 – Present**

Full Stack Developer *Karachi, Pakistan*

- Built web applications end-to-end with React, Next.js, TypeScript, and Node.js, from REST APIs to responsive frontends.
- Built backend services with NestJS and Supabase, including authentication APIs, payments, and edge functions.
- Built real-time features with Socket.io and integrated third-party services, including Twilio calling and external data APIs.
- Integrated the Claude and OpenAI APIs into client apps for AI chat, voice input, and photo analysis.
- Built 10+ React Native apps alongside web work, with 5+ published on the App Store and Google Play.
- Created reusable boilerplates used across 8+ client projects, set coding standards, and mentored junior developers through code reviews.

PROJECTS (Geeks of Kolachi)

Fantronics – Skorboard | *Full Stack Developer* **React.js, Express.js, Socket.io**

- Integrated an external Stats API delivering XML data, converting it to JSON and handling malformed chunks to achieve a 98–99% successful parse rate.
- Fixed a critical socket disconnection bug on 4K TVs by implementing a stable reconnection strategy.

BoilingOptions | *Frontend Developer* | Live Site **React.js, Stripe**

- Built the React.js frontend for BoilingOptions, a subscription platform for options investors, including the options listings, screener tables, flow filters, and CSV export.
- Integrated Stripe for subscription billing across the Basic and Premium plans.

Attractify.AI | *Frontend Developer* | App Store **Next.js, TypeScript, Twilio, Docker**

- Built the Next.js web app and React Native mobile app for Attractify, an outreach platform for real estate agents.
- Integrated the Twilio SDK for real-time in-app calling, working with the Ruby on Rails backend team.

Human Nature | *Full Stack Developer* **NestJS, TypeScript, React Native**

- Built the complete authentication API in NestJS, including Apple and Google sign-in.
- Implemented an interactive Leaflet map to select countries by coordinates and built the admin panel.
- Led development of the React Native CLI app, including real-time voice translation across multiple languages.

Boldence | *Full Stack Developer* | Website **Supabase, OpenAI, Jest, React Native**

- Designed the PostgreSQL schema and Supabase edge functions for AI photo analysis with server-side quotas.
- Wrote unit tests with Jest, running in CI on every pull request.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, Redux, Zustand, TanStack Query, Tailwind CSS
Backend: Node.js, Express, NestJS, REST APIs, Firebase, Supabase, PostgreSQL, MongoDB
AI: Claude API, OpenAI API, Claude Code, Prompt Engineering
Mobile: React Native (CLI, Expo), EAS Build, Push Notifications, In-App Purchases
Tools: Git, Docker, Sentry, CI/CD, Socket.io, Twilio, Stripe

CERTIFICATIONS

• React Native – Meta • Advanced React.js – Meta • Claude Code in Action – Anthropic

EDUCATION

Iqra University **2022 – 2025**

Bachelor of Science in Computer Science *Karachi, Pakistan*
